I understand the following items as they relate to college transcripts:

- College credit is granted through Redlands Community College (RCC) through a cooperative enrollment alliance with Canadian Valley Technology Center (CVTC).
- Final grades submitted by the CVTC instructor will become part of the student's official college transcript.
- Once the student is officially enrolled in a college course, if necessary, the student must drop that course within the college's designated time frame. If the student does not drop the course within the designated time frame, the grade he/she earns will appear on his/her official college transcript.
- There will be an \$8 per credit hour academic services fee assessed by RCC. The student is responsible for paying this fee at the time of enrollment. This fee will vary based on the number of courses in which the student is enrolled.
