In the correspondence, please include a copy of the most recent action letter from the agency and the change being requested.

Distance Education and Correspondence Education

Instructions

- Review your institution's distance and/or correspondence education stipulation and confirm that you have reviewed that information. Accreditation Liaison Officers can request the [Institutional Status and Requirements](#) (ISR) report to review all stipulations.
- If the stipulation is not correct, contact changerequests@hlcommission.org.

Correspondence Education (federal definition)

Education provided through one or more courses by an institution under which the institution provides instructional materials by mail or electronic transmission, including examinations on the materials, to students who are separated from the instructor. Interaction between the instructor and the student is limited, is not regular and substantive, and is primarily initiated by the student. Correspondence courses are typically self-paced. Correspondence education is not distance education.

Distance Education (federal definition)

Education that uses one or more of the technologies listed below to deliver instruction to students who are separated from the instructor and to support regular and substantive interaction between the students and the instructor, either synchronously or asynchronously. The technologies used may include:

- The internet
- One way and two-way transmissions through open broadcast, closed circuit cable, microwave, broadband line, fiber optics, satellite, or wireless communication devices.
- Audio-conferencing
- Video cassettes, DVDs and CD-ROMs, if the videocassettes, DVDs or CD-ROMs are used in conjunction with any of the above technologies listed above.

Distance-delivered Courses

Courses are those in which at least 75% of the instruction and interaction occurs via electronic communication, correspondence or equivalent mechanisms, with the faculty and students physically separated from each other.

Distance-delivered Programs

Certificate or degree programs in which 50 percent or more of the required courses may be taken as distance-delivered courses.

If you have additional questions, please review the [Help page](#) (see the question mark icon in the upper right-hand corner). You may also contact HLC by selecting the envelope icon.

Distance Education and Correspondence Education Stipulation

Branch Campuses

Instructions

To ensure that students off campus have consistent access to Title IV federal student aid, institutions should work closely with their financial aid offices to make certain that information about off-campus operations is reported consistently to the U.S. Department of Education and to HLC. The institution's locations should be reported the same way to the department and HLC.

- Verify the following data points for each branch campus:
 - Campus name
 - Status
 - Address (including city, state, postal code and country)
 - Open date
 - Head count (based on actual or anticipated enrollment for current year)
 - Location type
- The Accreditation Liaison Officer can log in to HLC's [Location and Campus Update System](#) to update the campus name or head count for a listed branch campus, if necessary.
- Adding, closing or relocating a branch campus requires prior HLC approval. See HLC's website for policies and procedures related to [branch campus changes](#).
 - **Note:** HLC does not approve branch campuses or additional locations retroactively; therefore, it is important for institutions and the students they serve that institutions seek approval well before any students matriculate at a new or relocated campus or additional location.
- If other details about the institution's branch campuses need to be updated, contact changerequests@hlcommission.org.

HLC Dues Calculation: The number of active branch campuses and additional locations identified at the time of the Institutional Update submission will be used to calculate the institution's annual HLC membership dues. The institution's dues will **not** be adjusted if changes occur between the submission of the Institutional Update and the mailing of the dues invoice in July.

Branch Campus

A location of an institution that is geographically apart and independent of the main campus of the institution. HLC considers a location of an institution to be independent of the main campus if the location has all four of the following attributes:

- It is permanent in nature.
- It offers courses in educational programs leading to a degree, certificate, or other recognized educational credential.
- It has its own faculty and administrative or supervisory organization.
- It has its own budgetary and hiring authority.

If you have additional questions, please review the [Help page](#) (see the question mark icon in the upper right-hand corner). You may also contact HLC by selecting the envelope icon.

Additional Locations

Instructions

To ensure that students off campus have consistent access to Title IV federal student aid, institutions should work closely with their financial aid offices to make certain that information about off-campus operations is reported consistently to the U.S. Department of Education.

- Verify the following data points:
 - Location name
 - Status
 - Address (including city, state, postal code and country)
 - Open date
 - Title IV eligibility
 - Head count (based on actual or anticipated enrollment for current year)
 - Program type
 - Location type
- The Accreditation Liaison Officer can log in to HLC's [Location and Campus Update System](#) to update the location name, status, head count or programs for a listed additional location, if necessary.
- **Important:** Be sure that the status of each additional location is correct. The number of active additional locations will be used to calculate the institution's HLC membership dues. Inactive and closed additional locations are not included in this calculation.
- Adding or modifying an additional location may require prior HLC approval. See HLC's website for policies and procedures related to [additional location changes](#).
- **Note:** HLC does not approve branch campuses or additional locations retroactively; therefore, it is important for institutions and the students they serve that institutions seek approval well before any students matriculate at a new or relocated campus or additional location.

HLC Dues Calculation: The number of active branch campuses and additional locations identified at the time of the Institutional Update submission will be used to calculate your institution's annual HLC membership dues. Your institution's dues will **not** be adjusted if changes occur between the submission of the Institutional Update and the mailing of the dues invoice in July.

Additional Location

A place, geographically separate from any main or branch campus, where instruction takes place and students can do one or more of the following:

- Complete 50% or more of the courses leading to a degree program.
- Complete 50% or more of the courses leading to a Title IV eligible certificate.
- Complete 50% or more of a degree completion program (even if the degree completion program provides less than 50% of the courses leading to a degree program).

There is no base or threshold number of students or distance from the campus necessary for a facility to qualify as an additional location under this definition.

An additional location typically does not have a full range of administrative and student services staffed by the facilities personnel; such services may be provided from the main campus or another campus.

A facility may provide access to instruction requiring students to be present at a physical location that receives interactive TV, video, or online teaching. It is considered an additional location when 50% or more of a distance delivery program is available through one or more of these modalities at that facility. Note: This requirement does not apply for locations in which there is a general computer lab that students might use for distance delivery courses.

An additional location has active status when students are enrolled. Its status is inactive when students are not enrolled. The status can change between active and inactive without approval from HLC. However, a location may only be classified as inactive with no student enrollment for a maximum of two consecutive years. At that point, HLC will require the institution to close the location.

If you have additional questions, please review the [Help page](#) (see the question mark icon in the upper right-hand corner). You may also contact HLC by selecting the envelope icon.

Consortial Arrangement

Instructions

- At its February 2020 meeting, HLC's Board of Trustees adopted a policy change to no longer require HLC approval of consortial arrangements. More information about this policy change is available on [HLC's website](#)
- All arrangements that HLC has individually approved or been notified of by the institution are displayed. Please check the box below to confirm you have reviewed the list.

Consortial Arrangements
